Profile

Motivated and passionate Computer Science graduate with a strong interest in software development and problem-solving. Familiar with core Java programming principles and object-oriented design, and eager to apply theoretical knowledge in real-world development environments. Comfortable working with code, collaborating with teams, and continuously learning new tools and technologies. Looking to kickstart a career where I can grow as a developer and contribute meaningfully to impactful projects.

Skills

Front End Development

I can leverage my front-end skills to develop a beautiful UI-UX experience, by using the framework and languages I've learnt such as **REACT JS,** **Tailwind CSS**

Back End Development

I've gained experience in back-end development by building project such as Library Management System, AI SAAS application by using Databases such as **Mango DB, Node JS.**

Programming Languages

- Java
- Python
- Java Script
- Data Structure and Algorithms
- SQL
- OOP

Soft Skills

- Problem Solving
- Documentation Skills
- Sound Communication Skills
- Leadership skills

Internship

Sakha Global

2024/11 – 2025/01

- Domain - Java Fullstack Development
- Had an opportunity to lean the functionalities of core java and advanced java.

Scontinent Technology

2023/11 – 2023/12

- Domain- Full-Stack Development
- Project - Sconti dashboard

EXPA

2023/09 – 2023/10

- Domain- Character Improvement
- Venue - CATC-2 at venkateshwara College

Rapsol Technologies

2023/07 – 2023/08

- Domain - OOPS programming using JAVA.

Projects

AI SAAS Application

2024/07

AI Tools Platform

- An AI companion, which consist of features such as AI Image generation, AI Audio generation. Using OpenAI API's

- Technologies - **NEXT JS, Firebase, OpenAI API**

Sign language interpretation System

2023/11

Hand sign detection using open CV

- Designed an robust hand sign prediction system , which is capable of detecting hand sign in realtime
- Technologies - **Open CV, Keras,Numpy,Lable maping.**

Library Management System

2023/09

- Developed an web application which consisted of both admin , students Interface for college Library.
- Technologies - **MYSQL, XAMP, PHP**

Certificates

- | | |
|-----------------------------------|---|
| • Frontend development - Coursera | • JAVA programming - NPTEL |
| • CS50- EDX | • DBMS and ER Diagram - Infosys Springboard |

Education

SSLC

Holy Angeles High School

Percentage - 89.9%

Board - Karnataka State Board

PUC

St Joseph Pre-University College

Percentage - 87%

Board - Karnataka Board

B.E - Information Science and Engineering

Don Bosco Institute Of Technology

CGPA - 8.6 CGPA

Board - VTU

Declaration

I hereby declare that information given above is true and completed to the best of my knowledge and believe that your organization will provide me the best opportunity to develop my career
